STORAGE SOLUTIONS

GROW FROM THE INSIDE, OPTIMIZE AND GET RESULTS

A comprehensive line-up of best-in-class high-density storage solutions that are precision-engineered to deliver lasting high-capacity storage.

ELIMINATE THE NEED FOR MULTIPLE SPACE-WASTING STATIC AISLES. HERE IS HOW:

1. Static units are mounted on mobile carriages.
2. Mobile carriages travel on tracks.
3. Use the handle to move the manual systems or turn the 3-spoke SafeCrank handle for mechanical-assist systems or push a button on the powered system control to open the desired aisle.

MOBILEX® WITH SMARTSHELF®

MOBILE STORAGE SYSTEMS

Recover up to 50% of your floor space or double your storage capacity with the Quadral, SmartSpace, Mobilex® and the SafeAisle® mobile storage systems.

QUADRAL MODULAR SLIDING LATERAL STORAGE

COMBINED FLEXIBILITY TO STORE VIRTUALLY ANYTHING

EVERYTHING IS NOW POSSIBLE WITH SMARTSHELF® TAKE SPACE EFFICIENCY TO A NEW LEVEL

SMART **SHELF**®

Montel has designed the most versatile storage shelving system. You can store virtually anything without wasting any storage space with SmartShelf® as you can configure and reconfigure your shelving units to fit all shapes and sizes of your objects. You can reconfigure it anytime according to your changing storage needs and available space.

FROM ONE TIER TO THE NEXT

SmartShelf® is the only storage system that can be configured with back-to-back or double face full depth shelves, or any combination of both.

BACK-TO-BACK SHELVES

The shelf system is independently adjustable on both sides for many storage possibilities. Easy to assemble and reconfigure.

DOUBLE FACE FULL DEPTH SHELVES

For storing large objects of various lengths, shapes and sizes.

AESTHETICS

- No rivets, screws or bolts are used. The shelves, centerstops and backstops fit snugly to the posts, providing a neat and attractive finish. A wide variety of colors is available.
- Optional end panels are available in laminates, wood veneers, and acrylic for an attractive look.
- Adjustable threaded leveling feet are supplied for more stability on uneven floor surfaces.
- Powder-coat paint finishes are extremely durable, preventing marks, scratches and chips while providing a very nice finish.

EASY TO ADJUST A SHELF

SAVE SPACE | SAVE TIME | SAVE MONEY

SHELVING SYSTEM WITH HOOKS: EASY TO RECONFIGURE & NO TOOLS REQUIRED

The SmartShelf® exclusive hook shelf support system provides the quickest and greatest ease of assembly, disassembly, and reassembly.

No tools, hammers or mallets needed to install, remove, or reconfigure shelves as necessary with industry typical shelf support systems.

The shelves can be conveniently put in or taken out without adjusting, tilting, or removing the shelves above or below since the box-formed posts do not impede the front of the shelf. The slide-in & slide-out capability truly reduces the time and effort to reconfigure the shelves, as there is no handling of the various shelf components.

Additionally stored objects are protected from disruption on the adjacent shelves below.

STORE MORE IN LESS SPACE

ADDITIONAL LINEAR STORAGE CAPACITY OF 3/4" (19.5 MM) PER SHELF

Provides more actual usable storage space since the box-formed post does not impede the front of the shelves as found on other systems.

AVAILABLE IN 39 3/8" (1 METER) WIDE SECTIONS

For storing 3 archival boxes perfectly without wasting any storage space (provided each box is maximum 12 1/2" (31.7 cm) wide).

Provides much greater overall capacity compared to other shelving systems that are usually only available in 36" (91.44 cm) or 42" (1.07 m) wide sections thus not optimizing space.

UNIVERSITY OF WISCONSIN ATHLETIC DEPARTMENT BADGERS

COMPETITIVE TEAMS REQUIRE TOP OF THE LINE EQUIPMENT TO PERFORM. THE ATHLETIC DEPARTMENT OF THE UNIVERSITY OF WISCONSIN NEEDED AN EFFICIENT WAY TO SORT AND STORE THE BADGERS'S GEAR AND SPORT MATERIALS.

LARGE FRONT STOPS & GARMENT ROD FOR JACKETS

“ All our gear is now properly organized. We now have the capability of storing much more sporting goods for multiple sports within the same footprint. We like the ability to customize easily our shelving system, and all the accessories as we can now rapidly change from one sport to another.

”

“ Montel offers the flexibility to customize our shelves more. We can adjust the Montel shelves at 1" and 1 1/2" increments. That 1/2" adjustment in height can make a huge difference in additional storage space.

”

“ We also like the neat finish of the Montel products. There are no sharp corners under the shelves or around the posts for our sporting goods to get cut on or ripped which prolong the life of our equipment.

”

CHALLENGES

The University of Wisconsin needed flexible athletic equipment mobile shelving storage solutions either for their multisports or their football equipment as powerful as its sports legacy and as dominant as their Wisconsin Badgers.

SOLUTIONS

The product featured is the Mobilex® renowned to be the smoothest operated mechanical-assist mobile shelving system in the industry since it is effortless to move multiple mobile units at once.

PRODUCTS FEATURES

Custom mobile shelving installations, on the other hand, can improve an entire sports department's organization and storing power across all activities. By centralizing all sports storage into one space-efficient shelving system, universities save resources on the field and across their campuses. Investments into the sports programs are safely squirreled away in one secure location after every game, and schools reduce their storage footprint by as much as 50 percent upon installation.

BENEFITS

As important as weight training is for all athletes, nobody has to hit the gym before opening and closing aisles in a mobile shelving system. Thanks to our ergonomically designed mechanical-assist hand cranks, players, managers and coaches can operate shelving effortlessly no matter how much equipment a sports department loads onto its shelves.
