

Store more. Period.

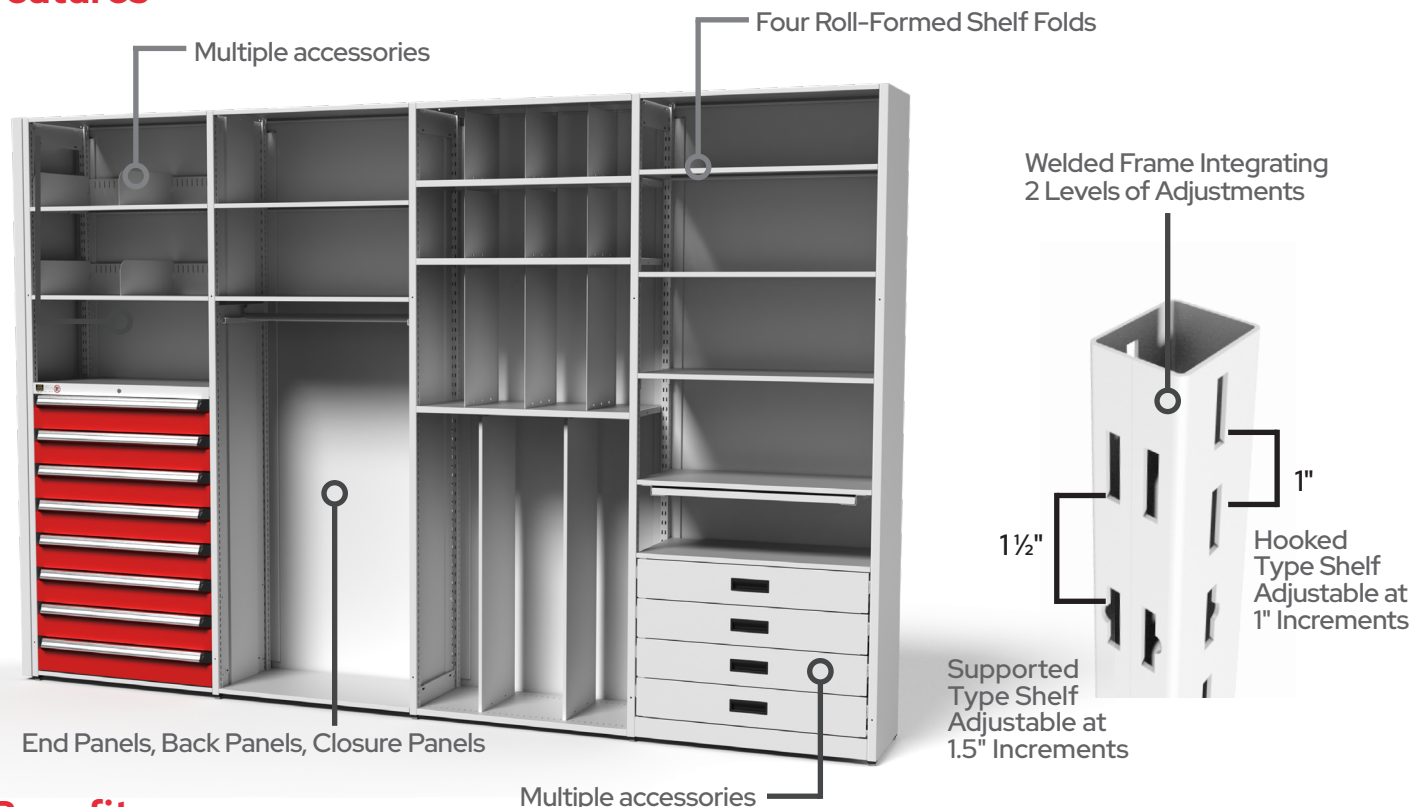

SmartShelf®

Organized. Convenient. Storage bliss.

SmartShelf® 4-post shelving storage system is an open-ended shelving alternative, which can be configured in countless ways and customized to hold a wide array of items. Designed with versatility in mind, it's a one-shelf-fits-all solution for myriad storage needs.

Features

Benefits

1. Both Back-to-back and Full-depth configurations can be combined within a row to provide greater versatility, allowing you to tailor the system to your varied storage needs.
2. The frame features no exposed edges, provides full access to shelf contents, and allows for easy shelf relocation without the need to remove adjacent shelves.
3. No loss of space, total adjustability for accessory arrangement and no tools required for installation.
4. For a truly comprehensive storage solution, the SmartShelf system provides full-depth shelving that optimizes every inch of space.
5. All shelves features smooth, finished edges for enhanced safety and aesthetics, while also offering increased strength to support heavier loads with confidence.
6. Available options include end panels, back panels, and closure panels to enhance both appearance and finish.
7. A wide range of accessories for general or specific purposes (slotted shelves with dividers, back and front stops, drawers, reference shelf, trays, doors, garment rod, athletics/golf/ weapon/media/bin storage, etc.).
